34. Give detail account on various types of forests.
35. Write a short note on 'slash and burn agriculture'

SECTION-E

E. CASE BASED STUDY QUESTIONS (1M x 4 = 4Marks)

Life of the people of the Amazon basin is slowly changing. In the older days the heart of the forest, could be reached only by navigating the river. In 1970 the Trans Amazon highway made all parts of the rainforest accessible. Aircrafts and helicopters are also used for reaching various places. The indigenous population was pushed out from the area and forced to settle in new areas where they continued to practice their distinctive way of farming. The developmental activities are leading to the gradual destruction of the biologically diverse rainforests. It is estimated that a large area of the rainforest has been disappearing annually in the Amazon basin. <https://www.cbseboardonline.com>

36.1. Amazon basin lies in-

- a. Tropical region
- b. Frigid region
- c. Polar region

36.2 Which type of forest grow in Amazon region-

- a. Deciduous forest
- b. Tundra forest
- c. Rainforest
